Introduction
I have sought to keep a running tabulation of all books, edited collections, translations, and journal articles which are primarily devoted to Aristotle’s ethical and political writings (including their historical reception but excluding neo-Aristotelian virtue ethics). Criteria for inclusion in this bibliography are: (1) published after January 1, 2021 (including pre-publication articles assigned a DOI); (2) devoted to one of Aristotle’s ethical or political works (e.g., Pol, EN, EE, MM, Athenian Constitution, Protrepticus); and/or (3) devoted to ethical or political concepts examined elsewhere in Aristotle’s corpus (e.g., Rhetoric, Poetics, zoological treatises, etc.). I encourage scholars to alert me about published works that I have omitted or listed incorrectly.
