

Erratum

Due to a technical error, which happened during the printing process, Table I, appearing on page 54 of the article, “Does Ethics Training Neutralize the Incentives of the Prisoners Dilemma? Evidence from a Classroom Experience” (Journal of Business Ethics 50 (1), 2004, pp. 53–61) is incorrect. Below we publish the correct version of the table, with our sincere apologies for any inconvenience caused.

TABLE I
The Prisoner’s Dilemma experiment, in which the payoff received is extra credit points

	Your partner chooses Cooperate	Your partner chooses Not Cooperate
You choose Cooperate	I +4 extra credits for you +4 extra credits for your partner	II +1 extra credits for you +6 extra credits for your partner
You choose Not Cooperate	III +6 extra credits for you +1 extra credits for your partner	IV +2 extra credits for you +2 extra credits for your partner
