

titiously reinforced during the VT schedule conditions, since the occurrence of such behavior could be closely correlated in time with food delivery. It is unlikely that this behavior was adventitiously reinforced during exposure of Pigeon AC 25 to the FR schedule, since this subject's keypecking behavior, once initiated, continued without interruption until food delivery.

ERRATUM

Kosslyn, S. M., and Matt, A. M. C. If you speak slowly, do people read your prose slowly? Person-particular speech recoding during reading. *Bulletin of the Psychonomic Society*, 1977, 9 (4), 250-252. Page 250, column 1, Procedure section, the first two sentences should read: "Subjects first simply listened to the conversation. Next, they were asked to read aloud one paragraph; half of the subjects were told that 'Harry, the first person you heard on the tape, wrote it' and half were told that 'Jim, the second person you heard on the tape, wrote it.'"
