### Erratum to: Health Care Anal DOI 10.1007/s10728-013-0244-5

In the original version of this paper, unfortunately, there happened to be a mistake in the paragraph “Several studies have compared health...better results or lower costs [7].” under the section “Health Care is NOT a Right?”

The incorrect sentence is: For example, hip and knee replacements are not performed on Canadian and UK citizens after 77 (no matter how healthy).

The correct sentence is: For example, hip and knee replacements in Canada and the UK are prioritized by age such that older citizens are on a long waiting list.
