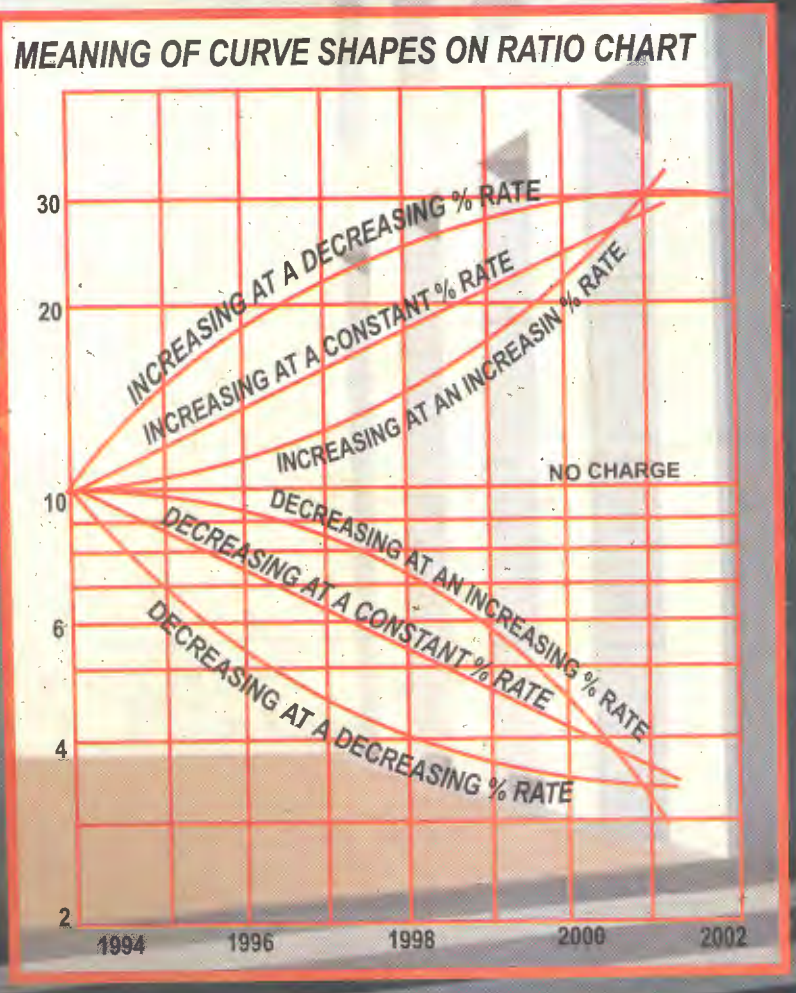
CONTEMPORARY STATISTICAL METHODS



S. O. Otokiti Ph.d

O. I. Olateju, O. Adejumo

CONTEMPORARY STATISTICAL METHODS

OTOKITI OYEWOLE SUNDAY
M. Com, M.A. Econs. Ph.D, FCIA
Faculty of Management Sciences
Department of Business Admin.
And Mgt. Tech
Lagos State University,
Lagos.

MR. ADEJUMO GBADEBO OLUBUNMI
Bed, Med.
Lecturer,
Dept. of Human Resource Development
College of Human Development
Covenant University,
Ota, Ogun State

MR. OLATEJU IBRAHIM
B.Sc, M.Sc
Lecturer,
Faculty of Management Sciences
Department of Business Admin.
And Mgt. Tech
Lagos State University,
Lagos.

TABLE OF CONTENT

PAGES

Chapter 1 WHAT AND WHY OF STATISTICS 1-26

1.0 Introduction, Meaning and Application 1-4

1.1 Origin and Growth of Statistics 5-8

1.2 Definitions of Statistics/Statistics 8-14

1.3 1 Statistics and Statistical Methods, 1.3.2 Analysis of Statistics Parameters

1.3 3 Statistics a Science or Art

1.4 Functions of Statistics 15-16

1.5 Scope of Statistics. 17-22

1.5.1 Statistics and the State, 1.5.2 Statistics and Business Management

1.5.3 Grouping of Business Activities, 1.5.4 Statistics and Economics

1.5.5 Statistics and Econometrics, 1.5.6 Usage of Statistics at National Level

1.5.7 Statistics and Physical Sciences, 1.5.8 Statistics in Insurance and other uses

15.9. Flexibility and Act of Statistics

1.6 Limitations Statistics 23-24

1.7 Distrust of Statistics 24-26

Suggested Readings 26

Chapter 2: ORGANIZATION OF STATISTICAL SURVEY 27-39

2.0 Introduction 28

2.1 Types of Statistical Survey 28

2.1.1 General Purpose Survey, 2.1.2 Special Purpose Survey

2.2. Stages of Statistical Survey 28

2.3 Planning the Survey 28-33

2.3.1 Specification of the purpose, 2.3.2 Scope of Survey

2.3.3 The Unit of data collection, 2.3.4 Types of Statistical Units

2.3.5 Sources of data, 2.3.5 Technique of data collection

2.3.7 The Data Frame, 2.3.8 Degree of Accuracy desired

2.4 EXECUTING THE SURVEY 34-39

2.4.1 Setting up an administrative organization, 2.4.2 Design of Forms

2.4.3 Selection of Training, 2.4.4 Controlling of Field Edit

2.4.5 Follow up of non-response, 2.4.6 Processing of data

2.4.7 Preparation of Report

2.5 Suggested Readings. 39

Chapter 3: Sources Of Data In Statistical Method 40-64

3.0 Nature of Data Origin 41

3.1 Types of Data 41

3.1.1 Differences between Primary and Secondary Data, 3. 1.2 Advantages and Limitations of Secondary Data, 3.1.3 Choice between Primary and Secondary Data

3.2 Methods of Collecting Primary Data 42
3.3 Drafting Questionnaire 42 - 47
3.4 Pre-testing the Questionnaire 48 - 51
3.5 Specimen Questionnaire 51 - 52
Samples of Questionnaire
(A) Industrial Questionnaire on the Development of Management Skills
(B) Questionnaires to test Student Preference on Shop listed items
3.6 Questionnaire Reporting 52 - 53
3.7 Sourcing of Secondary Data 53 - 61
3.8 Editing the Data 61 - 62
3.9 Precautions in the usage of Secondary Data 62 - 63
3.10 References 63 - 64

Chapter 4: SAMPLING AND SAMPLE DESIGNS 65 - 86

4.0 Introduction 66
4.1 Complete Enumeration, 4.1.1 Sample Procedure 66
4.2 Purpose of Sampling 67
4.2.2 Theoretical Basis of Sampling, Principle of Statistical Regularity Principle of "Inertia of Large Numbers
4.3 Method of Sampling 67 - 70
4.3.1 Advantages of Probability Sampling, 4.3.2 Limitation of Probability Sampling, 4.3.3 Non-Random Sampling,
4.4 Methodology of Sampling 70 - 74
4.4.1 Random Sampling Method, 4.4.2 Simple or Unrestricted Random Sampling, 4.4.3 Restricted Random Sampling, 4.4.4 Stratified Sampling, 4.4.5 Systematic Sampling
4.5 Non-Random Sampling Methods 75 - 81
4.5.1 Judgement Sampling, 4.5.2 Convenience Sampling,
4.5.3 Quota Sampling, 4.5.4 Selection of Appropriate Method
4.5.5 Limitation of Sampling .
4.6 Sampling and Non-Sampling Errors. 82 - 85
4.6.1 Sampling Errors, 4.6.2 Causes of Bias, 4.6.3 Avoidance of Bias n
4.6.4 Method of Reducing Sampling Error, 4.6.5 Non-Sampling Errors,
4.6.6 Control of Sampling Errors
4.7 References 86

Chapter 5: DATA CLASSIFICATION AND TABULATION 87-114

5.0 Introduction 88
5.1 Conceptual Analysis 88 - 91
5. 1. 1 Objectives of Classification, 5.1.2 Types of Classification
5.2 Formation of a Discrete Frequent Distribution 92 - 93
5.3 Classification According to Class Interval 93 - 96

5.4 Principles of Classification 96 - 100
5.5 Tabulation 101 - 102
5.5.1 Differences between Classification and Tabulation, 5.5.2 Role of Tabulation
5.6 Parts of Table 102 - 107
5.6.1 Identification of Footnote, 5.6.2 General Rules of Tabulation
5.6.3 Review of the Table
5.7 Types of Table 107 -111
5.8 Miscellaneous Illustrations 111 - 113
5.9 Machine Tabulation and Use of Computer 113 - 114
5.9. 1 Advantages of Mechanical Tabulation.
6.0 References 114

Chapter 6: DIAGRAMMATIC AND GRAPHIC PRESENTATION 115-173
6.0 Introduction 116
6.0.1 Significance of Diagrams and Graphs, 6.0.2 Comparison of Tabular and Diagrammatic Presentation, 6.0.3 Difference between Diagrams and Graphs, 6.0.4 General Rules for Constructing Diagrams
6.1 Types of Diagrams 116 - 119
6.2 One Dimensional or Bar Diagram 119 - 128
6.2.1 Types of Bar Diagram
Simple Bar Diagram, Sub-divided Bar Diagram, Multiple Bars, Percentage Bars, Deviation Bars, Broken Bars
6.3 Two Dimensional Diagram 128 - 136
Rectangles, Squares, Circles, Pie Diagrams
6.4 Three Dimensional Diagram 136 - 138
Cubes
6.5 Pictograms and Car-to-grams 138 - 142
6.6 GRAPHS ANALYSIS 142 - 146
6.6: 1 Techniques of Constructing Graphs, 6.6.2 . Graphs. of time Series or Line Graphs, 6.6.3 Graphs for Constructing the Line Graphs on Natural Scale, 6.6.4 Graphs of Two or More Variables, 6.6.5 Semi Logarithms Line Graphs or Ratio Charts, Uses of Ratio Charts
6.7 GRAPHS OF FREQUENCY DISTRIBUTION 160 - 172
6.7.1 Histogram, 6.7 .2-Frequency Polygon, 6.7.3 Smoothed Frequency Curve. 6.7.4 Cumulative Frequency Curves
6.8 Limitation of Diagrams and Graphs 172 - 173
References

Chapter 7: MEASURES OF CENTRAL VALUE 174 - 226
7.0 INTRODUCTION 174 - 176
7.0.2 Objectives of Central Values (Averages)
7.0.3 Requisites of a Good Average 173

7.2 Types of Average 176 - 177
7.3 Arithmetic Mean 177 - 179
7.3.1 Calculation of Simple Arithmetic Mean - Individual Observations, 7.3.2 Calculation of Arithmetic Mean - Discrete Series, 7.3.3 Calculation of Arithmetic Mean - Continuous Series, 7.3.4 Correcting Incorrect Values, 7.3.5 Calculation of Arithmetic Mean in case of Open-end Classes, 7.3.6 Checking Accuracy of Computations, 7.3.7 Mathematical Properties of the Arithmetic Means, 7.3.8 Merits and Limitations of Arithmetic Mean, 7.3.9 Weighted Arithmetic Mean, 7.3.10 Crude and Standardized Death Rates.
7.4 MEDIAN 196 - 210
7,4.1 Calculation of Median-Individual Observations, 7.4.2 Computation of Median - Discrete Series, 7.4.3 Calculation of Median - Continuous Series, 7.4.4Calculation of Median when Class Intervals are Unequal, 7.4.5 Mathematical Property of Median, 7.4.6 Merits and Limitations of Median, 7.4.7 Related Positional Measures, 7.4.8 Determination of Median, Quartiles, etc., Graphically.
7.5 MODE 211-223
7.5.1 Calculation of Mode, 7.5.2 Calculation of Mode - Individual Observations, 7.5.3 Calculation of Mode - Discrete Series, 7.5.4 Calculation of Mode - Continuous Series, 7.5.5 Mode when Class Intervals are Unequal. 7.5.6 Locating Mode Graphically, 7.5. 7 Merits and Limitations of Mode, 7.5.8 Relationship among Mean, Median and Mode,
7.6 GEOMETRIC MEAN 224 -226
7.6.1 Properties of Geometric Mean, 7.6.2 Calculation of Geometric Mean - Individual Observations

Chapter 8: MEASURES OF VARIATION 227 - 265
8.0 INTRODUCTION 227 - 229
8.1 Objectives of Measuring Variation 229 - 230
8.1.2 Properties of a Good Measure of Variation
8.2 Methods of Studying Variation 230 - 231
8.2.1 Absolute and Relative Measures of Variation
8.3 RANGE 231 - 233
8.3.1 Merits and Limitation of Range, -8.3.2 Uses of Range
8.4 THE INTERQUARTILE RANGE OR THE QUARTILE DEVIATION 233 - 237
8.4.1 Computation of Quartile Derivation, 8.4.2 Continuous Series,
8.4.3. Merits and Limitations of Quartile Deviation, 8.4.4 Percentile Range
8.5 THE AVERAGE DEVIATION 237 - 265
8.5.1 Computation of Mean Deviation - Individual Observations, discrete series and continuous series.

Chapter 9: STATISTICAL SOFTWARE PACKAGES
9.1 INTRODUCTION 266
9.2 Interactive Statistical Programs (ISP) 269
8.1.2 Properties of a Good Measure of Variation
9.3 SigmaStat 271
9.3.1 Statistix
9.3.2 Statmost

Chapter 10: STATISTICAL PACKAGE FOR THE SOCIAL SCIENCES (SPSS)

10.1 INTRODUCTION 276
10.2 Data Entry 276
10.3 Individual Cases 277
10.4 Run Statistical Reports 279
10.5 Computing Means and Standard Deviations 281
10.6 Computing T-Test 282
10.7 Independent Samples T-Test 282
10.8 Computing Correction 283

SUGGESTED READINGS 265
STATISTICAL TABLES 266 - 284
Table I & 2: Logarithms
Table 3 & 4: Antilogarithm suggested
Table 5 & 5: Power Roots & Reciprocals
Table 7 : Square Roots from 1 to 10
Table 8 : Reciprocals of Numbers from I to 10
Table 9 : Normal Curve Table
Table 10: Areas for Students t Distributions
Table 12: Binomial Coefficient
Table 13: Area for the X^2 distribution
Notes on Tables 284
INDEXES

Dr. S. O. Otokiti is an alumnus of the University of Delhi, He was till December 1987, a faculty member of Delhi School of Economics, where he graduated in International Business Management with honours. He had distinguished career in Nigeria, Europe and Asia. He was educated in Ibadan, Mercury, Cochin, Amsterdam and Portsmouth and obtained B.Com (Hons); M.A Econs; M.Com.; PG.D International Law and Diplomacy; M Phil., Ph.D. He is a distinguished professional (MIIM; FNMI, FCIA). He has taught many undergraduate and postgraduate classes for about decades.

He has written a number of textbooks on economics and has been contributing to academic journals. He was on the postgraduate Board of Studies of Faculty of Arts & Humanities, Faculty of Social Sciences, Lagos State University for many years, and Faculty Coordinator of Introductory Statistic for over a decade now.

COMTEMPORARY STATISTICAL METHODS
DR. S.O. OTOKITI (Author 1)

Mr. O. I Olateju obtained has B.Sc and Msc from University of Lagos Akoka. He has been a mathematics teacher for the past 21years, He has taught at the Senior Secondary, Polytechnics and at the University. He is currently teaching Mathematics and statistics in the faculty of management sciences, Lagos State University Ojo. (Author 2)

Adejuwo .O graduate from University of Ilorin and University of Ibadan. He is a counsellor and researcher with bias in psychological testing and Measurement. He is currently a lecturer of the convenant university ota Ogun State. (Author 3)

Notwithstanding the departments within management and social science, the instructor in-charge the text through managerial based design, used , many different examples, illustration and solutions. These solutions are expected to provide students with the opportunity for immediate feed-back to their attempts on selected questions. They are broad application exercises that are based, in every case, on "Real World" data, particularly as applicable to Nigeria.
